HAMLIN, JONES COUNTY, TEXAS,

FRIDAY, SEPTEMBER 6, 1935.

NUMBER 45.

New Nazarene Church Building Will Have Opening Services Sunday

The history of the Nazarene Church organization in Hamlin would make a good story, and interesting reading. Once upon a time this Church owned and operated a large college, changing into a University and later back to an academy and later disbanding and all the while using the school property as their place of worship.

About one year ago the "College Church" burned and since then till last Sunday the congregation, under the leadership of Rev. J. H. Whitaker, has worshipped in the High School auditorium.

During the time since the church property burned, Rev. Whitaker has proven his untiring ability and resourcefulness in trying to do something in spite of a lessened membership, disintegrated property, depression, and a dozen other things almost unsurmountable. But he has carried on, leading and planning, and this Sunday he asks the Hamlin public to come worship with them in their new building.

This building has sprung into existence almost by magic, as far as the "outsider" is concerned. But a few outsiders have kept an eye on that fellow Whitaker, whose energies seem never to run slim. First there was a suitable location to be found, and purchased. Today you will see a sizeable frame structure facing west on the corner of 6th St. and

Hope Ave. The building is 40 by 72 feet, on lots 100 by 140. This church building is two blocks west of the Methodist Church on 6th Street, one block north and one block west of the Baptist Church and the same distance from the east facing of the High School building. Making it right in the center of activities. The auditorium is airy and comfortable, ample to care for the normal growth of the church.

Many Hamlin people, besides the membership have helped in the building and it is the desire of the pastor for all such persons to be present this Sunday for the opening service. The entire structure is not fully completed, but what has been accomplished is enough to prove the stability of the church and devotion of the membership.

One of the important features of Rev. Whitaker's activities—he has thus far advanced with but a little under one thousand dollars of indebtedness. But the organization still has about 23 acres of land and several lots all of value, to offset that sum.

STATEMENT FROM
REV. WHITAKER

"We feel like saying with the Psalmist David, 'The Lord hath done great things for us whereof we are glad.' Through the long tedious

waiting we have at times almost despaired of the thing we now enjoy, a place of our own in which to worship God. We wish to thank the Hamlin School Board for their kindness in extending to us their auditorium, for had they not done so, the Lord only, knows what we would have done. Again we thank everyone who has helped us to build our church home, and earnestly invite everyone of them to our formal opening services Sunday morning, Sept. 8th.

"Rev. Atteberry has promised to be with us at this time if he can possibly do so. Rev. Atteberry is our District Superintendent of the Abilene district.

"Our revival meeting begins Tuesday, Sept. 10th, promptly at 8:00 P. M. Rev. E. G. Theus, of Bethany, Oklahoma, one of the outstanding evangelists of our church, will do the preaching. We desire that this revival effort will be heartily entered into by everyone who desires a revival in Hamlin regardless of their denominational relationship. In other words we desire a 'co-operative' revival effort on the part of everyone."

CHURCH OF THE NAZARENE,
J. H. WHITAKER, Pastor.

J. F. Gay and wife of Joplin, Mo., returned last Friday after a most enjoyable visit here with his brother, J. W. Gay and wife.

HAMLIN GOLF TOURNEY ENDED

The Herald has been trying all week to get some golf player to write up a report of what happened on the Lakeview grounds, links, diamond, or lot or what ever they call the field or pasture where they play, but to this late hour no one has reported, thus Ye Editor, who does not even know what the golf grounds are called, is left in the position of telling of something he knows nothing about, never even saw a round played. Why we don't even know what "tee-off" means, much less what a "layout" or "flight", nor nothing. It's all jaber.

We notice, however, they talk about "consolation," that sounds like somebody was in sorrow. For example, in the tournament we are told that W. W. Milner of Hamlin won the championship flight by giving W. F. Johnson a beating 7 and 6. Its OK, we guess for Mr. Johnson was all smiles even though he took some kind of beating. The "consolation," maybe, fixed things with him.

From reports it also seems that a fellow by the name of Panny Farmer of Knox City, did something to Frank Johnson (kindly imposing on the Johnsons). They said something about Farmer "overwhelming" Frank, while defending the championship, with figures 10 to 9 in the scheduled finals, getting into 36 holes. Also that Farmers "smashed" "par" by wading and slopping around over the course Monday morning getting 36-33—69. We guess that's OK, for they say its the first time any amateur ever broke our layout like that. Can't see why 10 to 9 is so "overwhelming."

It seems that Buford Dean has taken to the "air" too. We see where he took a second flight with Paul Smith, who beat Buford to the ground 4 to 3.

We also see that Bob Edwards of Knox City knocked down Doc Neal of Hamlin in the second flight consolation, to the same 4 and 3.

That's all right boys, figures don't mean much unless they have a dollar mark to the left of them. You all mean well, whether you are on a flight or just walking. Maybe you just don't "tee-off" right.

Mr. and Mrs. Hugh Gafford left Saturday for San Antonio to visit relatives. They were accompanied by Mr. and Mrs. E. F. Fahey and daughter, Miss Bernice, who will also visit relatives in that city.

Harold Bonner and wife returned Tuesday night from a great trip to Lima, Ohio, where they went to drive back to Hamlin a Dodge School bus. They were detained in the factory city owing to some mistake in orders or something. At any rate they had a great trip and the bus is a nice job.

MILK COW WANTED

If you have a milk cow to let out for feed. See

H. A. LONGINO.

ANNOUNCEMENT

Odus L. Echols and his All-Star Texans will be heard in concert at the Hamlin High School auditorium, Thursday night, Sept. 12, at 8:15 o'clock. Don't miss a treat. Come and hear them. The football team is sponsoring this program and will profit thereby if a good crowd is in attendance. Admission 15c and 25c. ROY MORRIS, Coach.

W. M. White of Los Angeles, arrived Tuesday to see his brother, Frank White, who is in the Hamlin Hospital. Another brother, Dr. White, of Childress, came Thursday, to see Frank.

Inches and Inches of Rain Soak Farms and Ranches

Nearly every dry spell ends with a rain or two. Not much rain has come to this country since the middle of June. But the excessive rains in that month left so much moisture in the soil till a great crop of early feed was made, and just as the September days crept up, the whole country went wet again.

Sunday afternoon what appeared to be a general rain came up from the west, southwest and north. A good rain in Hamlin and west of town they report a flood.

Sunday night about 12:15 rain again started and there was a continual downpour of water till far up in the morning. At least four inches fell and was perhaps the biggest rain all over the territory we have had in some years.

Early Monday morning the Dry California Creek had reached such a high stage that traffic from Hamlin to Anson was stopped. The creek was over the highway at the Holt Bridge spreading out more than 600 feet wide.

The roads and fields in the area south of Hamlin, the water shed of Dry California Creek, were damaged greatly by the flood of water.

Commissioner John C. Turner says his part of the county has suffered a loss of perhaps \$25,000 in the flood south of Hamlin.

This rain starts the fall off wet. It means a great deal to pastures, and late feeds. It means early wheat sowing, and fall plowing. It may also mean plenty of leaf worms in cotton. Farmers had been watching their cotton carefully and doing the poisoning act to hold them down, for the past few weeks. The rains will perhaps mean greater growth of cotton, later fruitage, and it may even produce beyond the government allowance.

This rain paints a good background for 1936, as far as crops are concerned. The only thing now disturbing is the question of where are the people who desire to make a living on a farm, going to live. The country may be making too much but we do KNOW there are not enough people making a little for themselves. A few making too much is not helping as much as many making a little, each for himself.

NOTICE

TO THE PUBLIC

I have assumed the management and full control of the Estate of Mrs. Harriette E. Hill, Widow of T. M. Hill, deceased. And those who now have accounts or claims against said estate may present them to me or my consideration.

And NOTICE is hereby given, that I will not be liable or responsible for any charges or accounts of any nature hereafter made by any person, against Mrs. Hill or said estate unless and until I have authorized same.

Witness my hand at Hamlin, Texas, this the 5th day of September, A. D. 1935.

H. O. CASSLE,

Attorney in Fact for
Harriette E. Hill. (45-2t)

Even the woodpecker uses his head in his work.

HAMLIN BUSINESS SHUFFLING AROUND

September, as usual, brought its wave of business changes and shiftings, and tear-ups and removals, and adjustments in Hamlin.

First, all last week the B. Hassen Store was keeping the avenue hot, shifting from the location just south of Waggoners to the Day Building to combine with the F. N. Hassen store which has been there for over a year.

The Hassen Store removal left a good location vacant and as was expected it was soon contracted for and so another change of business took place.

Miss Neppie Russell, as Hamlin people have always been accustomed to call her (we should say Mrs. Cleve Dunn) closed a deal for the Vogue Stock of ladies' ready-to-wear and this firm ceases in Hamlin while Mrs. Dunn has had the Hassen store building (Johnson Building) just south of Waggoner Drug, already fitting up ready for business. We note also that Mrs. Frank Johnson has changed from the Strauss Store, to this place, as Saleslady.

Another change to be noted is that of Mrs. Nolen Haines, Beauty Parlor, which for many months has occupied the Vaughan residence on the Rotan Road, has moved into the Mrs. Dunn Ready-to-Wear building, and is being fitted up for "down-town-business."

These days you fail to see the smiling face of A. D. Ensey at the Bryant-Link Grocery. A. D. has been there for about eight years, and with the Company for nine years, first as dry goods salesman and eight years as head of the grocery department. A. D. is soon to hang out his own "shingle." Don't know just what he will call it, many tales are being told on him, but confidentially we believe it will be called "The Sunshine Grocery." A. D. Ensey, Owner and Manager. A. D. may call his grocery something else, but the sign will hang where the Vogue store was. Carpenters are busy placing in a "grocery" front there and A. D. is stepping all about there.

The Gas Company is moving its display of gas appliances to the Wilson Hardware and also that place will be the "pay office."

The Hamlin City Market has a new owner in the person of Bill Cave and Mr. Hicks is out after fat cattle and other stock.

Another change of business line-up is that of the West Texas Cotton Growers Association. Chuck McCurdy, who has been with the firm or organization is to leave in the next few days for the Lubbock office. His place in Hamlin will be filled by L. H. McBride, with office space over the bank.

Another change to be noted this week is that the "U-Neat" Cleaning shop is in new hands. This place known as the Charlie Myers Shop is beginning Saturday under the ownership and management of L. R. Rose and W. W. McCown from Stamford. Mr. Rose is a married man, with wife and three children and Mr. McCown is a single man. Mr. McCown is in personal charge of the shop, with A. D. Walton as Tailor. Their announcement appears in this week's Herald.

—IT PAYS TO ADVERTISE.

Notice . .

TO ALL GAS CONSUMERS IN HAMLIN:

—All gas bills and merchandise payments due, are payable at the Wilson Hardware Co. after Sept. 1.

For the present all gas service calls will be answered at Wilson Hardware Co.

"INVESTIGATE FIRST"

IS WARNING AGAINST

"HOT BUSINESS" STUNTS

A warning to John Citizen to guard against petty racketeers with wild promotion schemes and colored sales stories on "bargain" merchandise is sounded by Alvin E. Gillett, Association of Commerce secretary of Madison, Wisconsin.

Human gullibility for old-time "rackets" with new frills, he says in the Rotarian Magazine, is taking untold millions every year from an innocent public—money that should go into the tills of local merchants. According to the National Better Business Bureau, there is an annual loss from such operations of eight dollars for every man, woman, and child in the United States.

"Business men, for example, are solicited by mail to buy raincoats, suitcases, or similar articles. The bait is an unusual price if the prospect will give a letter of recommendation. He may get a first rate article himself. But all his friends get copies of his recommendation—and if they fall for the stunt, they sometimes get the worst kind of shoddy.

"There is also the 'smuggled goods' racket," he continues. "It usually runs to 'oriental' rugs, 'imported' lace, 'fur' coats, and so on. The salesman may be a 'sailor', or somebody supposedly just back from abroad. The goods—whisper it!—came in duty free. That's the yarn. Often they are the cheapest sort of trash. One woman I know of paid \$80 for four 'oriental' rugs that were not even worth \$20. The 'Persian' who sold them was arrested, luckily, and returned the woman's money.

"The number of rackets is almost from Wellington, where he had been limitless. Unordered merchandise called to see his aged mother, 89 may be sent. Many charity appeals years of age, who is very feeble.

are blatant rackets. So are many so-called 'railroad magazines' and time-books, year-books, radio-logs, directories and shippers' guides.

"The racketeers are sometimes so close to the border-line of honesty that it is impossible to prosecute them. They are a threat to all business. It is an obligation, not merely to be on guard against being victimized, but to see that others are not taken in.

"There is one safe rule," he concludes. "If everyone followed it, it would cover the whole case and scare the whole tribe of parasitic racketeers. It is: **I INVESTIGATE FIRST.**"—From THE ROTARIAN Magazine.

DISTRICT COURT
STARTED MONDAY

The September term of the 104 District Court started Monday. The following men constitute the Grand Jurors:

M. L. Blythe returned Saturday

from Wellington, where he had been limitless. Unordered merchandise called to see his aged mother, 89 may be sent. Many charity appeals years of age, who is very feeble.

SPEED DEMONS WILL
KILL SOMEBODY

Everytime somebody in some other community, or some other country gets killed by some speed demon, or drunken devil, we are made to look, listen, and shiver in our Hamlin town, when we see death-dealing cars rip up and down Hamlin's streets, and the highways all around the country.

60 MILES PER HOUR

A mile has 5,280 feet in it, and a city block in Hamlin has only 300 feet. Let's figure how easy it is for a reckless driver to clip the heels off a person or crash into a car that may be trying to get a cross a street in front of a speed demon racing in the residential section of Hamlin at 60 miles per hour. Let's figure it out.

SIXTY miles per hour is going 5,280 feet every 60 seconds. Then divide 5,280 feet by 60 and you get 88 feet per second. Then since the street plus the block will measure about 340 feet it will give anyone or anything but about 4 seconds to get out of the way at the next crossing. This is all the more terrible if the driver does not possess perfect control of himself. His eyes must be clear and steady, his mind must be on the road and the car and be conscious of constant danger. With all these "human requirements" there must be figured the mechanical condition of that speeding car. The results of your calculations are that when you see a car pass like a flash, even better than 60, the death angel is hovering near and only the good Lord is saving the demon driver, or some child or even grown person from a quick and sure death.

A hundred crimes of other natures are far more dangerous to humanity than the "speed demon devil" on a small town street.

Is it possible for people to have protection from a constant fear?

Is it possible that even in the day time people must not let their children or aged parents try to cross a street for fear of having them cut to pieces by some person who is rushing to get somewhere and with nothing to do when he gets there.

Some one will become suspicious that Ye Editor has possibly seen some "civilian racing" in Hamlin, to inspire this editorial. Don't ask US who it is that is acting so criminally you can't even see a number on such cars, much less recognize the features of a face. Only a telescope can do that.

As backward as some people think Old Mexico is, they regulate speed in their cities with an iron hand. Up in dear old Texas is a land of freedom and "nobody don't want to hurt nobody's feelings" by trying to regulate what they don't want to do. Deaths from cars in the past are nothing to what they promise to be in the future. There is a way to handle the speed demon. It is speed that kills.

IRVIN S. COBB SAYS

"Sunday evening we skirted Death Valley, where, even when the temperature goes to 120, nobody dies but everyone would like to—and all of sudden we realized that Monday reckless drivers would be spreading the inferno influence all over the land, weather permitting.

"It is estimated that the automobile death toll for Labor Day will be 400 killed and more than 10,000 hurt or crippled. We did that well last year, and this year, being a progressive people, we want to pile the mortality statistics even higher. When it comes to slaughtering human beings to make a holiday, the old Romans were pikers.

"The figures are lacking, but, if the truth were known, I'll bet not one person in 1,000 driving at reckless speed is really in a hurry to get anywhere or will be needed by anybody for any useful purpose on arrival if he does arrive all in one piece.

"I must be getting old. I'd rather be late for supper in this world tonight than on time for breakfast in some otherworld tomorrow morning."

AAA AMENDMENTS
PASSED BY CONGRESS

COLLEGE STATION — A special release from Washington, D. C., outlines the amendments to the Agricultural Adjustment Act which have met the approval of both houses of Congress and have the signature of President Roosevelt.

The amendment have two major purposes. One is to give the Secretary of Agriculture added powers in carrying out the farm program and the other is to erect bulwarks around the program against the time when provisions of the Act will have to meet the crucial test in the Supreme Court.

"The new amendments," Secretary Wallace commented, "will permit increased 'adjustment' of production by permitting benefit payments for increased production." Wallace was careful to point out that there is little likelihood of this provision being put to use except in cases of grave emergency.

On the most controversial point, the section barring suits by processors to recover processing taxes in the event the levies are held unconstitutional, a compromise was reached. Processors can sue for recovery, but only after they have submitted their claims to the commissioner of internal revenue. However, the processors must show they have not passed the taxes along.

The amendments also permit the Secretary of Agriculture to draft marketing agreements with the consent of the majority of producers or processors for the following: Milk, fruits, tobacco, vegetables, soy beans, pecans, walnut and naval stores.

The recent act of Congress also extends the Bankhead cotton control and Kerr-Smith tobacco control act and authorizes a similar program for potatoes. It also permits start of the "ever normal" granary plan under which the Government could make loans to producers to induce them to hold surplus crops on farms.

Other provisos in the amendments authorize use of 30 per cent of customs receipts to finance export of crop surpluses, except cotton, under the export debenture plan; and authorize use of part of the \$4,000,000,000 works fund to buy up sub-marginal farm land.

MAN WANTED for Raleigh Route of 800 families. Good profits for hustler. We train and help you. Write today. Rawleigh Co., Dept. TXI-333-SA2, Memphis, Tenn.

(Sept 6-13-20-27p)

Miss Viva Milstead, a teacher in the intermediate department of the Hamlin schools, has been a patient in the Hamlin Hospital till the past few days, but is at her home and perhaps will be able to take up her school work next week or soon after.

Mr. and Mrs. Silas Devenport and children, Donald and Mary Lou, returned to their home at the Flat Top School a little over a week ago, to be ready to resume their school work. They spent the summer in the Teacher's College at Denton, where Mr. Devenport completed his degree this summer.

"Uncle" John P. McClung would like for the farmers to know he is now "Air-foreman" at the Fed H. Britton Gin and would like to "demonstrate."

Hite Rippetoe of Lapan, Texas, came up Monday to spend a few days with his son, McFall and his daughter, Miss Mary Rippetoe.

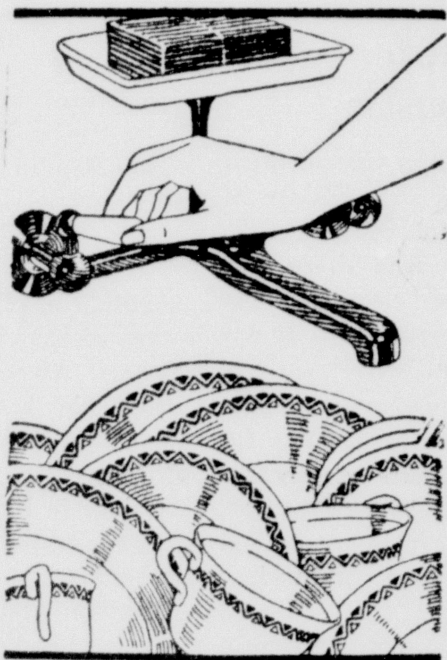

MARRIED

A surprise was given Mrs. J. C. Blanton by her granddaughter, Miss Era Bridges last week when she made known to her that she had become the wife of Oran Teague of the Abbie community.

They were married July 15 and had planned to keep the secret till later in the year—but such secrets are hard to keep.

Mr. and Mrs. O. L. Henry returned last week from a trip to Monterrey and Saltillo, Mexico. They also visited their brother, Pat Henry and wife at Taylor, Texas.

Now! Lowest Prices and Terms!

Gas Automatic
Water Heaters

Here's a modernizing opportunity the like of which has never been offered by your gas company. To make it easy for any home to enjoy the conveniences of an automatic hot water service we're offering our lowest in history prices and terms.

The automatic gas water heater completely eliminates hot water failures . . . does away with waiting for the tank to get hot. Its operation is entirely automatic . . . you don't even have to think about it. Come in and investigate. See how much our lowest in history prices and terms save you! Terms below are for a limited time only!

1. Special discount on all models, with extra discount for cash.
2. Trade-in allowance on old water heater, regardless of type.
3. Down payment so ridiculously low that any home can afford to switch to this modern automatic system for hot water.
4. Monthly terms so small that they will never be missed from the most modest of budgets!

Stamford and  Western Gas Co.

A Man-Size Meal
With Femme Appeal

It's a Good Buy at Twenty-Five Cents Per Person

Men and meals—perhaps the reason they "alliterate" is because they are definitely linked up. We'll prove it. Men for meals is as essential as meals for men—for a meal without a man is almost, not quite, as depressing a thing as a man without a meal. Further evidence of this fact is the fact that women seldom eat real meals without men. Tea and salad, perhaps—sandwiches, dessert and coffee, yes. But when the man of the house comes home unexpectedly he says the thing which has been said many times before—
"Don't you eat when I'm not home?"

Main Dish Salads

Meals for men, however, need not be the steak-and-onion orgies that we are apt to imagine. Now and then men like a dinner whose main dish is a salad, providing it's a good substantial salad, and that it is preceded by a sustaining soup and accompanied by hot bread.

These meals do not need to cost a lot either. It is true that as a rule a man pays more for meals away from home than women do. But this is because he prefers coffee shops to tea-rooms, and oyster-bars to soda-fountains.

Make up the difference in the household budget, by serving meals now and then which cost little, but which afford a lot—in enjoyment and nutriment. We are

suggesting a sample menu that serves four persons for one dollar.

MENU

Cream of Cabbage Soup with Toast Fingers 18c
Tuna and Apple Salad 31c
Potato Chips 10c Radishes 5c
Baking Powder Biscuits 10c
Chocolate Ice Cream 18c
Coffee 8c

Tuna and Apple Salad: Combine the contents of one 7-ounce can of tuna fish with two-thirds cup of sliced celery, one tablespoon sliced green pepper and a few grains of salt. Sprinkle two cups of lemon juice over one cup of diced apples and add. Moisten with one-third cup of mayonnaise. Chill and serve on crisp lettuce leaves.

Chocolate Ice Cream: Mix together in the top of a double boiler three tablespoons sugar and one tablespoon flour. Add two-thirds cup milk or diluted evaporated milk slowly, stirring constantly. Cook until thick, stirring constantly. Pour slowly over one slightly beaten egg, return to double boiler and cook one minute, stirring constantly. Do not cook long enough to curdle. Add one-fourth cup canned chocolate syrup and let cool. Add one-half cup cream, whipped to a custard, and turn into refrigerator freezing tray. Freeze, beating once during freezing process.

THE BULL FAMILY IN ANNUAL REUNION "ROUND-UP"

The Second Saturday in August is the accustomed day for the Bull family to meet in their annual "Round-up" reunion. But this year they were delayed by sickness in the family and thus it was that the last Saturday and the last day of August was the time for the old West Texas family to assemble at the home of Mr. and Mrs. J. R. Bull near Hamlin.

The usual fine barbecue consisting of beef and mutton, bread and pickles, and cold water, made up the eats feature. Mr. Bull raises the meats on his farm, kills and barbecues it right there on the ground, and besides the "children" they invite scores of their intimate friends, some from a distance.

This year there were about 150 invited guests.

Those of the Bull family present were:

Mrs. W. W. Hickman, (Edna Bull) of Mineral Wells; Mrs. T. E. Hale (Jannie Bull) of Thurber; Mrs. W. F. Harris (May Bull) and her daughter, Miss Mary Neal, of Eastland; Mrs. A. P. Lowe (Lizzie Bull) and her daughter-in-law, Mrs. Geo. Lowe, both of Breckenridge. Mrs. Bert Dalee (Annie Bull) of Denton, was the only one of the sister unable to be present, however, she was here for the usual reunion day. The widowed sister-in-law, Mrs. Mary Bull and her children were also present.

The boys of the family and present were W. G. Bull and family of Hamlin.

The Bull family originated in Eastland County.

FOR SALE

I am now offering for sale the live stock consisting of several good Mules, Horses and Mares, and one high bred stallion. And all cattle. Also all farming implements of the estate of Mrs. Harriette E. Hill.

Those wishing to purchase any of this property or all of it, may call on me at my Office, over F. & M. Bank, in Hamlin.

H. O. CASSLE (45-2t)

Mrs. Paul Fowler has as her guest this week her sister, Miss Leone Meadows, who has just returned from a trip on the Pacific Coast including Victoria, Vancouver, B. C., Seattle, Portland, San Francisco, Los Angeles, Catalina Island and the San Diego Exposition.

Miss Agatha Griffin and Oma Lee Herd have entered the West Texas Baptist Sanitarium at Abilene to take a three years' course in nursing.

Miss Sylvia Dee Griffin spent Saturday with her brother, Cleve Griffin, in Abilene.

McCAULLEY NEWS

The rain that fell Sunday afternoon and Sunday night sure was fine on the late cotton that was beginning to burn. The cooler weather is giving the worms a chance to feast.

The Baptist revival closed Sunday night with two additions to the church. Although 6 were baptized Sunday afternoon, 5 from last February's meeting. Those baptized were: Mrs. J. W. Wood, two Faulkenberry boys, Buford Jackson, Jessie Faye Martin and Lillian Bess Darden.

Miss Jewell Davison had as her guests this week-end, four of her friends and classmates from North Texas State Teacher's College, Misses Frances Hardesty, Ft. Worth, Marguerite Bales, Denton, Ruth Stegall and Eunice Rubenpoenig, Graham, Texas. Miss Davison entertained her guests with several picnics and house parties.

John Miles' mother from Ky., is here for a visit him and his family.

Miss Bennie Perryman spent last week with her aunt, Mrs. Elmer Rogers, at Neinda.

Miss Ora Stephenson has returned to Port Arthur to resume her position as History teacher in the High School there.

Mr. and Mrs. Jim Milsap and Miss Bill, have returned home from a visit in Oklahoma.

Mr. and Mrs. Duffey Houghton of Denton, are here visiting relatives.

Mr. and Mrs. Frank Drennan are very proud of their new home which is almost completed.

Mr. and Mrs. W. A. Stephenson and daughter spent several days here last week with Mrs. Stephenson and family.

Mr. and Mrs. Turner Beard and other relatives have returned from a motor trip to Richmond, Va., where they attended the Keller reunion. Mrs. Beard just received an invitation this summer to attend this reunion. She is a kinsman of the famous Helen Keller.

A BAY STALLION

I am offering for quick sale or trade, the pretty Bay Stallion, known as the T. M. Hill Stallion, one mile north of Hamlin. Those interested please call at my Office, in Hamlin.

H. O. CASSLE.

Miss Francis Annis, of Andrews, Texas, arrived Monday to begin her school work in Home Economics Department. The past summer she has been in the Home Service Department of the West Texas Utilities Co. This is her second year in Hamlin.

CALF STRAYED

We have a white face calf about 8 months old, in the City Pen. It will be sold in due time unless owner claims it.

O. A. HALLMARK. (p)

Home makers may yet come to a fuller appreciation of beautiful wood through the surprising medium of clothing work. At least there are signs of that. Take this story from Dickens County for instance: "Buttons made of mesquite roots trimmed the natural color linen crash dress

which Mrs. R. F. Harrell, Red Top Home demonstration club member, entered in the recent clothing contest. Mrs. Harrell dug the root, sawed it and carved the buttons herself. Each button showed two shades of wood, the only trimming needed on the dress."

Some people are never right—not even when they are not wrong.

The perfect fool is one who thinks he never makes a mistake.

An educated person is who tells what everyone knows in words that no one understands.

Mrs. P. A. Fowler and children returned Wednesday from a two weeks' visit in Temple, Texas.

There may be other changes in the "offing" but so far you have the low-down on them for Sept.

The greatest compliment that can be paid any organization is the acceptance and endorsement of its policies by the public. Never before in our history have we had a more tremendous response and approval than was evidenced in our new and remodeled store in Hamlin.

MISS JENNINGS SAYS BEAUTIFY

Vitex is hardy in West Texas. It grows quickly and blooms from early spring until late fall. The pretty blue blossom has rather a desert look.

Arizona cypress is a gray plant that fits in the native country and can be easily transplanted after they are large. This shrub stands a great deal of abuse after the first year.

Renters do not like to spend money on a place but every home should have beauty about it. Beautify regardless. Do just a little each year. There is nothing more tragic than rearing a family without beauty around them. They will make much better citizens if they have beauty around them. Children learn to look for beauty in rocks and flowers.

Make the children partners in the beautification projects and they will watch so that the flowerbeds will not be destroyed. You may have a plant and seed exchange so that you will not be out very much money. The present is a good planting time for transplanting next spring. Root your own plants. Have a cutting bed of moist sand in a semi-shaded place but do not keep the soil too moist. Do not try to transplant too soon, have a good rooting system first.

Use red careless weed with castor beans. They are beautiful even if you are to be there just one season. Iris does well in this country. They bloom the first thing in early spring. Hollyhaws are very brave plants. Root hollyhaws and larkspur now if you want them to bloom next spring. Flowers do not grow very well for selfish people. They must be separated to do well.

Mexicans always have at least a red geranium growing. If each individual does just that much, how much more beauty we could have.

A little 3-room house may have a lawn, window boxes, verbenas, morning glories, trumpet or moon vines and you may have a beautiful home. The water situation is a drawback but laundry water can be used. Even dish water may be used if it is put around the plant and not on the plant. Utilize what you have to beautify your home. — From Miss Evelyn Jennings, H. D. A., Fisher Co.

LUBBOCK, Texas, Sept. 3.—A scrap of paper in the president's office at Texas Technological College was given new significance by the tragic death of Will Rogers recently. On October 29, 1926, Rogers was visiting in the home of Amon G. Carter of Fort Worth, then chairman of the board of directors of the College. Carter mentioned that the Tech band wanted to come to Fort Worth for the Tech-T. C. U. football game, but that the College would be unable to finance the trip.

"How much would it take to bring them?" Will asked.

"About two hundred dollars, I think," Carter answered.

Without any hesitation, Rogers sat down and wrote a check to the Tech band for exactly two hundred dollars on his Beverly Hills bank, and presented it to his host. A photostatic copy of this check was retained by the College as a souvenir.

Lady Took Cardui When Weak, Nervous

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

4-H Boys and Girls Encampment at Lueders

One hundred and fifteen boys and girls and their sponsors with a number of parents as guests met at Lueders, August 28, for an all-day picnic.

The program began at 10:00 o'clock with a sing-song led by three of the girls who attended the Farmer's Short Course.

Reports were then given by Nealy Mae Humphrey, Avoca, Lela Mae Mitchell, Swan Chapel, Jaunita Carter and Artie Price, of Hawley, all of whom attended the Short Course. In these reports the girls told of most of the meetings of the boys and girls and described many of the buildings on the campus. The Gold Star program was often told of and before the meeting was over each boy and girl there knew just what it meant to be a Gold Star girl or boy in Texas.

The rest of the morning was spent in swimming. After lunch, which was served picnic style, the group assembled again. Karl Bonneaux Jr. of Noodle entertained the group with several readings.

At 1:44 the group was divided. The boys met with the Farm Agent and the girls met with the Home Demonstration agent.

At 2:30 the boys and girls played a preliminary baseball game. The winners in the girls game then played the winners in the boys game. The boys won.

OTHER INTERESTING POINTS:

Dressing Chickens—
"Never scald a chicken to dress them except in the fall when they are moulting," said Mrs. Alex Capps, Liberty-New Hope Home Demonstration Club, in a discussion on "Dressing Chickens for the Home and Market."

"Just clip the chicken at the back of the tongue, puncture the brain by sticking a sharp pointed knife in the corner of the left eye and your chicken will be dead, well bled and the feathers loosened," said Mrs. Capps.

HOME DEM. ENCAMPMENT

The Home Demonstration Encampment was held August 28-29, at the Lueders Encampment grounds with 196 women and guests attending.

After supper, August 28, the group assembled in the auditorium for a 30 minute sing-song.

The evening program consisted of the following:

Readings by Carl Bonneaux, Jr., of Noodle.

Stunts, readings, and music pre-

sented by members of the various H. D. Clubs. The stunts were in the form of weddings, radio, artists program and negro meetings.

After this, the program was turned the Council Recreational Chairman and everyone enjoyed an hour of fun, especially the Hog Calling Contest.

The morning program, August 29, consisted of reports and demonstrations given by 13 of the 18 women who attended the Farmer's Short Course. These women were: Mrs. V. L. Merritt, Mrs. Karl Bonneaux, and Mrs. C. W. Seago, of Noodle; Mrs. F. W. Poe and Mrs. Kerr Whittenberg, of Neinda, Mrs. Bill Edgars and Miss Jaunita Fitzgerald of Lueders; Mrs. Kline Manly, Willow Creek; Mrs. George Harrell, Anson; Mrs. Ralph Goolsby, Hanna; Mrs. C. D. Gibbons, South Hamlin; Mrs. A. Capps, Liberty-New Hope; and Mrs. J. C. Williams, Avoca.

In the business meeting Mrs. Karl Bonneaux, Noodle, was elected as Encampment president, Mrs. Jack Fuqua, Avoca, Vice president and Mrs. C. W. Seago, Noodle, Secretary. These officers were to begin work immediately and will be responsible for the 1936 encampment.

The meeting adjourned at 2:30 after a short Council meeting.

LEARNED TO DIE

"NATURALLY"
"really learned to die naturally while at the Short Course," said Mrs. Kline Manly, Willow Creek H. D. Club.

"Did you know you could use anything from sassafras bark to Onion skins to dye materials and really get fast colors, too?" Mrs. Manly asked the group of women attending the H. Dem. Encampment.

"The one thing I was most interested in at this demonstration was the use of mordants—a chemical that you put material in to make it fast color. The most common mordants used are alum and chrome (potassium dichromate)," said Mrs. Manly.

JONES CO. 4-H AND H. DEM.

EXHIBIT SEPT. 20-21

The 4-H and H. Dem. club exhibit will be held in Anson, Sept. 20-21. All products will be checked in by 10:00 o'clock at which time the judging will begin.

Special exhibits, principally the utilization of meats and vegetables will be arranged either Friday after-

noon or Saturday morning by the various H. Dem. clubs. These exhibits will be judged after 9 o'clock Saturday morning.

This entire exhibit will be open to the public. It will remain open until 4:00 o'clock Saturday afternoon.

7000 ATTENDED FARMER'S

SHORT COURSE IN JULY

"More than 7000 people attended the 26th annual Farmer's Short Course at College Station in July," said Mrs. V. L. Merritt, Representative from Jones County Council, to those attending the Women's Encampment, August 29.

Mrs. Merritt attended all meetings of the Texas Home Demonstration Association and reported at length on these meetings. "The association is to our County Council what our Council is to the Home Demonstration Clubs," stated Mrs. Merritt.

Mrs. Merritt told of hearing the 4-H club girl who won the scholarship given by the Texas Home Demonstration Association each year to the most outstanding girl in the State. "After hearing this girl's talk, I can't see why every club woman in Texas isn't just to glad to pay their 5 cents educational fund to the club treasurer in February," she said.

Sh told of Extension work in Porto Rico as given by Miss Lola Blair, Food Specialist, and Miss Sadie Hatfield, District Agent, who have just returned from there.

Tate May and W. L. Beavers, both directors of the local Federal Land Loan Bank, attended a short course of the Farm Credit Administration of Houston, in Fort Worth last week. Mrs. May and young James Tate, Jr., accompanied Mr. May. The meeting was held in T. C. University.

TEXAS HISTORY IN THE MAKING

The Day That Black Beans Meant Death

On Sept. 11, 1842, Mexican General Woll with 1,400 troops captured San Antonio, surrounded and exterminated about 50 Texans, and then retired toward the Rio Grande. Immediately General Alexander Somervell set after Woll and the Texans invaded Mexico. Christmas day, 1842 they encountered 2,000 Mexicans at Mier, Mexico, and were forced to surrender. The unlucky Texans were then forced to draw beans, every 10th bean being black and meaning death to the man who drew it. Above is the scene of the drawing of the beans, from an old painting, while left is the old church at Mier. Near here the tragic lottery took place.

Fire Limits and Building Code

AN ORDINANCE ESTABLISHING THE FIRE LIMITS, REGULATING THE CONSTRUCTION AND MAINTENANCE OF BUILDINGS WITHIN SAME, REQUIRING A PERMIT, AND PROVIDING A PENALTY FOR THE VIOLATION THEREOF.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HAMLIN, TEXAS, AS FOLLOWS:

Sec. 1. The Fire Limits of the City of Hamlin, Texas, shall be as follows, to wit:

Beginning at the center of 6th street at its intersection with the alley between Blocks 31 and 40; Thence South with the center of said alley to the center of 10th street, passing between lots 12 and 13 in Block 58; Thence East with the center of 10th street to the West boundary line of the P. & S. F. Ry. Co. right-of-way; Thence in a North-easterly direction with West line of said right-of-way to its intersection with the alley in Block 57; Thence North with the center of said alley to its intersection with the center of 6th street; Thence West with the center of 6th street to the place of beginning.

Sec. 2. Permits Required. No wall, structure building or part thereof shall hereafter be built, enlarged or altered until a plan of the proposed work together with a statement of the materials to be used shall have been submitted to the building inspector or designated officer of the City of Hamlin who shall in accordance with provisions herein contained, issue a permit for the proposed construction. Before the permit is issued, the builder, his representative, or contractor shall be required to furnish detail information regarding the name of the owner, proposed location, character of occupancy, kind of materials, plumbing, wiring, roof covering, chimney and flue construction, manner and kind of heat to be used, estimated cost of building, estimated time for completion and the name of the contractor.

On securing this information, it shall be the duty of the building inspector or other authorized agent to issue a building permit upon the payment of \$1.00 by said owner which gives the builder the right to erect said building and the right to place the materials required for said construction upon the streets and alleys adjacent to the lot where said building is to be erected provided that in no event shall such materials be placed in any street or alley so that it will interfere with the traffic over and through said street or alley or endanger the public in passing such building.

Permits are required on all buildings erected with the corporate limits of Hamlin, Texas, with the exception of buildings where the total does not exceed \$100.00.

The building inspector or other designated officer shall be required to keep a record of all building permits issued in a well bound volume that shall be available for the inspection of the public.

Structures hereafter erected without a permit or not in conformity with this ordinance shall be removed. No building shall be moved from one location to another with the city limits of Hamlin, Texas, until a permit has been obtained therefor. A permit shall be issued only in case the construction is in accordance with this ordinance.

Sec. 3. Incombustible Construction Required Within Fire Limits—Every building hereafter erected, altered or enlarged within the fire limits, shall be enclosed on all sides with walls constructed wholly or reinforced concrete, and shall have the roof, also the roof and sides of all roof structures, covered with incombustible materials.

All Cornices shall be of incombustible materials.

Sec. 4. Frame Building—No structure whose walls are wholly or in part, constructed of wood, shall, hereafter, be built or moved into the fire limits as herein designated or as they may hereafter be established except as follows:

(A) Temporary one story frame buildings for the use of builders.

(B) Small outhouses not exceeding 100 square feet in area and 8 feet in height, not located within 30 feet of any other building nor within 5 feet of any lot line.

Any existing frame or ironclad building within the fire limits which may hereafter be damaged by fire, decay, or otherwise to an amount greater than one-half its present value exclusive of the foundation shall not be repaired or re-built, but shall be removed.

Sec. 5. Gas Connections—Gas connections to stoves and similar

heating devices shall be made of rigid metal pipes. For small portable gas heating devices, flexible metal or rubber tubing may be used when there is no valve or other shut-off on the device.

Sec. 6. Any person, firm or corporation violating any of the provisions of this ordinance, upon conviction, shall be subject to a fine not to exceed One Hundred (\$100.00) Dollars.

Sec. 7. All ordinances in conflict with this ordinance are hereby expressly repealed insofar as they conflict with this ordinance.

PASSED AND APPROVED this 27th day of August, 1935.

JOE CULBERTSON, Mayor.

Attest:
J. B. Eakin, City Secretary.
(Seal)

BEAUTIFICATIONS: We see a great deal about "beautifying" Texas for the 1936 Centennial. It looks to us as though it's too late. Beautification is a thing to be built, grown and that takes time. It's too late to beautify your roadside, your front yard for a tourist after the car is in sight.

WAR seems to be in the air all over Europe—even in our own peace loving nation 35,000 soldiers recently went through all kinds of fighting tactics. Men need to live to learn that war pays dividends only in death and debt. Are the European maneuvers to scare Italy, or is Italy trying to scare all Europe? While all this goes on poor old Ethiopia shakes in the shadow of death, each day expecting Italy's 600 airplanes to sweep across with their deadly fire and gas.

HAILE SELASSIE is the Ethiopian King. He is trying to sell "his kingdom" into friendly hands. Why not sell all of it Haile, and get England and the U. S. to save your life and develop your people?

GETTING READY FOR WAR

One of the most dramatic acts of the late Congress occurred, entirely unexpectedly as far as the general public was concerned, just before the session passed into history.

This act was the passage of the so-called "neutrality plan," proposed by the White House, originated by the Senate, and forced through the House by Administration leaders under a gag rule which forbade any amendments and limited debate to absolute minimum.

Reason for this unprecedented occurrence does not require a microscope to discover. Everyone knows that Europe is closer to a major war than at any time since 1914. The American State Department doubtless has a much better idea of how close war is than any other domestic agency—it is a possibility that inside Secretary Hull's handsome, impassive, white-thatched head there is knowledge that, if disclosed, would make headlines throughout the country. And, with the memory of the "incidents" that brought America into the World War still fresh, the Administration, which has consistently pursued an extremely cautious foreign policy, seems determined to keep us out of future conflicts if that is at all possible. High spots of the neutrality plan include:

Prohibition of the export of arms and ammunition to any foreign belligerent until Feb. 29, 1936 (by that time another Congress will be in session, and will be able to cope with changed conditions.)

Prohibition of the use of American vessels in arms traffic until February 29, 1936.

Establishment of a strict licensing system for American munition manufacturers and exporters.

Authorization for the President to require a bond of any ships suspect-

ed of transporting arms and munitions.

Authorization for the President to restrict or entirely close territorial American waters to the submarines of belligerents.

Authorization for the President to forbid American citizens to travel abroad during war except at their own risk, unless such traveling is made necessary in order to escape a zone of conflict.

It is an interesting fact that the neutrality bill passed both houses by close to unanimous votes—yet a number of Congressmen, including some who voted for it, are dubious. Senator Johnson, old-time advocate of U. S. isolation, said it would not prevent our getting into war. And a few voices, including that of Senator Wadsworth, potential Republican Presidential candidate, spoke up against the principle it represents, on the grounds that small, persecuted nations will be harmed by the policy, while big, aggressive nations will not. For example, Italy could get by without purchasing arms abroad—while closing of foreign buying to Ethiopia, which has no industrial resources that might be turned to munitions productions, would make it impossible for her to defend herself in the event of war.

However, editorial response to the plan has been highly favorable—papers which oppose the President in most of his policies are for him when he attempts to keep us out of the pending European super-war. The provision whereby Americans traveling on ships belonging to belligerents must do so at their own risk is perhaps the most important single part of the bill—remember the Lusitania! —INDUSTRIAL NEWS BUREAU.

MR. BRAYMER MAKES GAS ANNOUNCEMENT

The offices of the Stamford and Western Gas Company in Hamlin have been moved to the Wilson Hardware Company to facilitate improved service to consumers of Hamlin. Guy Wilson has accepted appointment as merchandising and collection representative for the company and has taken over the gas company's complete line of gas appliances. Payment of merchandise and gas service bills will be received at the Wilson Hardware Company.

Arthur Lawson, who has been with the company for two years has been appointed service manager for Hamlin. The new arrangement relieves the new service manager of all office routine and detail work and will enable him to devote his entire time to operation of the distribution system. Servicing and adjustment of appliances will also be carried on by Mr. Lawson as in the past.

A complete line of modern gas appliances are and will be on display at the Wilson Hardware Company, which has served the people of Hamlin for over a quarter of a century as a leading business firm of this city. To inaugurate the new line of gas appliances, Mr. Wilson has launched a special sale of water heaters including instantaneous automatic and automatic storage types of heaters. The gas company will continue to offer the same convenient terms on merchandise as in the past.

Mr. Braymer says, "It was with a great deal of satisfaction that I learned the Wilson Hardware Company would take over our merchandising business and collections in Hamlin, and I know that it will be a distinct advantage to the people of Hamlin. It will not only give consumers the benefit of many years experience in the merchandising business which Mr. Wilson has, but it will enable our service to devote his entire time to perfecting the gas service here."

"While I am pleased with my new appointment, I regret to give up my home in Hamlin and leaving my friends, but I am gratified that my duties will bring me back to Hamlin often."

The new teachers arriving this week to be members of the Hamlin faculty are, Mr. O. E. Larken, Miss Ruby Phenix, Mr. Thomas L. Cox, and Miss Olivia LeSueur. Of these, Miss Phenix is a "home" girl taking her first position in Hamlin.

Mr. and Mrs. J. O. Jones and daughter, Miss Marcelle of Commerce, came up Monday for a couple of days with old friends in Hamlin. They formerly lived in Hamlin.

H. C. Randolph and son, Albert of Floydada, were here last week to visit Mrs. J. C. Blanton, his sister.

METHODIST CHURCH

The last two Sundays have shown quite an increase in attendance. It is human nature to want to do things which others are doing the same things. There are dozens of Methodists in and about Hamlin with their membership elsewhere and other dozens with their membership here who would not know how to find their way to their S. S. class and would feel a sense of awkwardness in attending the church where their membership is held. Let's break the old habit of hanging out, and build a new habit by meeting with our friends at the church.

September's interesting services: Communion this Sunday morning. Dr. R. A. Stewart, Presiding Elder, preaches here on the 22nd, 11:00 A. M. The same afternoon, Dr. and Mrs. O. P. Clark, of Abilene, begin two training classes that will continue until Friday night of that week. Dr. Clark is teaching "General Organization" and Mrs. Clark has a specialization course in Junior work. Each course will be helpful. Sunday, 29th, is Promotion Day. New teachers will be installed and a program by the S. S. in connection with promoting the pupils.

Is this winter just going to be another winter in church routine services, or will each service sparkle with freshness and interest? It may easily be either but certainly not both.

"I am only one, but I am one, I cannot do everything, but I can do something. What I can do I ought to do, and by the grace of God I will do."

H. A. LONGINO, Pastor.

LUBBOCK, Texas, Sept. 3.—A skeleton with a knife directly in the back and an iron arrowhead in the side was uncovered by two Texas Technological College archaeologists in Room 25 of Arrowhead Ruin, Glorieta Pass, N. M., where students of Texas Technological College were excavating from July to August this summer.

Placed in an embryonic position with both arms evidently fractured before burial, a complete skeleton was taken out by the two diggers, even to the minute finger and toe bones. The estimated height of the skeleton was six feet and the sex probably a woman, because of the bowl shaped pelvis bone.

Since Arrowhead Ruin habitation date is from 1292 to 1450, this skeleton has been rather a mystery, as iron was not used by the Indians until after the Spaniards brought it in, in 1540, evidently this Indian came from a nearby pueblo and was for some reason killed and buried at Arrowhead Ruin. The authorities at the laboratory of anthropology were puzzled as to the origin of this skeleton; however, until a later date on Arrowhead Ruin's habitation is discovered it will remain another archaeology puzzle.

LADY WANTS WORK

I would like to get a place in some home as housekeeper or nurse. If interested call for me at Oscar Newsome's home, known as the W. A. Nobles' place.

MRS. J. PAYNE.

Mrs. Duffield Smith and little son, Duffield, Jr., of Dallas, visited her parents, Mr. and Mrs. H. O. Cassle, this week.

A BAY STALLION

I am offering for quick sale or trade, the pretty Bay Stallion, known as the T. M. Hill Stallion, one mile north of Hamlin. Those interested please call at my Office in Hamlin.

H. O. CASSLE.

Mrs. T. R. Tegert, Chief Operator of the local S. W. Bell Telephone Co. returned last Friday from a two week's vacation in East Texas. She was accompanied by her mother of Sweetwater.

Have a cutting bed of moist sand in a semi-shaded place but do not keep the soil too moist. Do not try to transplant too soon, have a good rooting system first.

Use red careless weed with castor beans. They are beautiful even if you are to be there just one season. Iris does well in this country. They bloom the first thing in early spring. Hollyhaws are very brave plants. Root hollyhaws and larkspur now if you want them to bloom next spring. Flowers do not grow very well for selfish people. They must be separated to do well.

Mexicans always have at least a red geranium growing. If each individual does just that much, how much more beauty we could have.

A little 3-room house may have a lawn, window boxes, verbenas, morning glories, trumpet or moon vines and you may have a beautiful home. The water situation is a drawback but laundry water can be used. Even dish water may be used if it is put around the plant and not on the plant. Utilize what you have to beautify your home. — From Miss Evelyn Jennings, H. D. A., Fisher Co.

LUBBOCK, Texas, Sept. 3.—A scrap of paper in the president's office at Texas Technological College was given new significance by the tragic death of Will Rogers recently. On October 29, 1926, Rogers was visiting in the home of Amon G. Carter of Fort Worth, then chairman of the board of directors of the College. Carter mentioned that the Tech band wanted to come to Fort Worth for the Tech-T. C. U. football game, but that the College would be unable to finance the trip.

"How much would it take to bring them?" Will asked.

"About two hundred dollars, I think," Carter answered.

Without any hesitation, Rogers sat down and wrote a check to the Tech band for exactly two hundred dollars on his Beverly Hills bank, and presented it to his host. A photostatic copy of this check was retained by the College as a souvenir.

Lady Took Cardui When Weak, Nervous

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

4-H Boys and Girls Encampment at Lueders

One hundred and fifteen boys and girls and their sponsors with a number of parents as guests met at Lueders, August 28, for an all-day picnic.

The program began at 10:00 o'clock with a sing-song led by three of the girls who attended the Farmer's Short Course.

Reports were then given by Nealy Mae Humphrey, Avoca, Lela Mae Mitchell, Swan Chapel, Jaunita Carter and Artie Price, of Hawley, all of whom attended the Short Course. In these reports the girls told of most of the meetings of the boys and girls and described many of the buildings on the campus. The Gold Star program was often told of and before the meeting was over each boy and girl there knew just what it meant to be a Gold Star girl or boy in Texas.

The rest of the morning was spent in swimming. After lunch, which was served picnic style, the group assembled again. Karl Bonneaux Jr. of Noodle entertained the group with several readings.

At 1:44 the group was divided. The boys met with the Farm Agent and the girls met with the Home Demonstration agent.

At 2:30 the boys and girls played a preliminary baseball game. The winners in the girls game then played the winners in the boys game. The boys won.

OTHER INTERESTING POINTS:

Dressing Chickens—
"Never scald a chicken to dress them except in the fall when they are moulting," said Mrs. Alex Capps, Liberty-New Hope Home Demonstration Club, in a discussion on "Dressing Chickens for the Home and Market."

"Just clip the chicken at the back of the tongue, puncture the brain by sticking a sharp pointed knife in the corner of the left eye and your chicken will be dead, well bled and the feathers loosened," said Mrs. Capps.

HOME DEM. ENCAMPMENT

The Home Demonstration Encampment was held August 28-29, at the Lueders Encampment grounds with 196 women and guests attending.

After supper, August 28, the group assembled in the auditorium for a 30 minute sing-song.

The evening program consisted of the following:

Readings by Carl Bonneaux, Jr., of Noodle.

Stunts, readings, and music pre-

sented by members of the various H. D. Clubs. The stunts were in the form of weddings, radio, artists program and negro meetings.

After this, the program was turned over to the Council Recreational Chairman and everyone enjoyed an hour of fun, especially the Hog Calling Contest.

The morning program, August 29, consisted of reports and demonstrations given by 13 of the 18 women who attended the Farmer's Short Course. These women were: Mrs. V. L. Merritt, Mrs. Karl Bonneaux, and Mrs. C. W. Seago, of Noodle; Mrs. F. W. Poe and Mrs. Kerr Whitteberg, of Neinda, Mrs. Bill Edgars and Miss Jaunita Fitzgerald of Lueders; Mrs. Kline Manly, Willow Creek, Mrs. George Harrell, Anson; Mrs. Ralph Goolsby, Hanna; Mrs. C. D. Gibbons, South Hamlin; Mrs. A. Capps, Liberty-New Hope; and Mrs. J. C. Williams, Avoca.

In the business meeting Mrs. Karl Bonneaux, Noodle, was elected as Encampment president, Mrs. Jack Fuqua, Avoca, Vice president and Mrs. C. W. Seago, Noodle, Secretary. These officers were to begin work immediately and will be responsible for the 1936 encampment.

The meeting adjourned at 2:30 after a short Council meeting.

LEARNED TO DIE

"I really learned to die naturally while at the Short Course," said Mrs. Kline Manly, Willow Creek H. D. Club.

"Did you know you could use anything from sassafras bark to Onion skins to dye materials and really get fast colors, too?" Mrs. Manly asked the group of women attending the H. Dem. Encampment.

"The one thing I was most interested in at this demonstration was the use of mordants—a chemical that you put material in to make it fast color. The most common mordants used are alum and chrome (potassium dichromate)," said Mrs. Manly.

JONES CO. 4-H AND H. DEM.

EXHIBIT SEPT. 20-21

The 4-H and H. Dem. club exhibit will be held in Anson, Sept. 20-21. All products will be checked in by 10:00 o'clock at which time the judging will begin.

Special exhibits, principally the utilization of meats and vegetables will be arranged either Friday after-

noon or Saturday morning by the various H. Dem. clubs. These exhibits will be judged after 9 o'clock Saturday morning.

This entire exhibit will be open to the public. It will remain open until 4:00 o'clock Saturday afternoon.

7000 ATTENDED FARMER'S

SHORT COURSE IN JULY

"More than 7000 people attended the 26th annual Farmer's Short Course at College Station in July," said Mrs. V. L. Merritt, Representative from Jones County Council, to those attending the Women's Encampment, August 29.

Mrs. Merritt attended all meetings of the Texas Home Demonstration Association and reported at length on these meetings. "The association is to our County Council what our Council is to the Home Demonstration Clubs," stated Mrs. Merritt.

Mrs. Merritt told of hearing the 4-H club girl who won the scholarship given by the Texas Home Demonstration Association each year to the most outstanding girl in the State. "After hearing this girl's talk, I can't see why every club woman in Texas isn't just to glad to pay their 5 cents educational fund to the club treasurer in February," she said.

Sh told of Extension work in Porto Rico as given by Miss Lola Blair, Food Specialist, and Miss Sadie Hatfield, District Agent, who have just returned from there.

Tate May and W. L. Beavers, both directors of the local Federal Land Loan Bank, attended a short course of the Farm Credit Administration of Houston, in Fort Worth last week. Mrs. May and young James Tate, Jr., accompanied Mr. May. The meeting was held in T. C. University.

TEXAS HISTORY IN THE MAKING

The Day That Black Beans Meant Death

On Sept. 11, 1842, Mexican General Woll with 1,400 troops captured San Antonio, surrounded and exterminated about 50 Texans, and then retired toward the Rio Grande. Immediately General Alexander Somervell set after Woll and the Texans invaded Mexico. Christmas day, 1842 they encountered 2,000 Mexicans at Mier, Mexico, and were forced to surrender. The unlucky Texans were then forced to draw beans, every 10th bean being black and meaning death to the man who drew it. Above is the scene of the drawing of the beans, from an old painting, while left is the old church at Mier. Near here the tragic lottery took place.

Fire Limits and Building Code

AN ORDINANCE ESTABLISHING THE FIRE LIMITS, REGULATING THE CONSTRUCTION AND MAINTENANCE OF BUILDINGS WITHIN SAME, REQUIRING A PERMIT, AND PROVIDING A PENALTY FOR THE VIOLATION THEREOF.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HAMLIN, TEXAS, AS FOLLOWS:

Sec. 1. The Fire Limits of the City of Hamlin, Texas, shall be as follows, to wit:

Beginning at the center of 6th street at its intersection with the alley between Blocks 31 and 40; Thence South with the center of said alley to the center of 10th street, passing between lots 12 and 13 in Block 58; Thence East with the center of 10th street to the West boundary line of the P. & S. F. Ry. Co. right-of-way; Thence in a North-easterly direction with West line of said right-of-way to its intersection with the alley in Block 57; Thence North with the center of said alley to its intersection with the center of 6th street; Thence West with the center of 6th street to the place of beginning.

Sec. 2. Permits Required. No wall, structure building or part thereof shall hereafter be built, enlarged or altered until a plan of the proposed work together with a statement of the materials to be used shall have been submitted to the building inspector or designated officer of the City of Hamlin who shall in accordance with provisions herein contained, issue a permit for the proposed construction. Before the permit is issued, the builder, his representative, or contractor shall be required to furnish detail information regarding the name of the owner, proposed location, character of occupancy, kind of materials, plumbing, wiring, roof covering, chimney and flue construction, manner and kind of heat to be used, estimated cost of building, estimated time for completion and the name of the contractor.

On securing this information, it shall be the duty of the building inspector or other authorized agent to issue a building permit upon the payment of \$1.00 by said owner which gives the builder the right to erect said building and the right to place the materials required for said construction upon the streets and alleys adjacent to the lot where said building is to be erected provided that in no event shall such materials be placed in any street or alley so that it will interfere with the traffic over and through said street or alley or endanger the public in passing such building.

Permits are required on all buildings erected with the corporate limits of Hamlin, Texas, with the exception of buildings where the total does not exceed \$100.00.

The building inspector or other designated officer shall be required to keep a record of all building permits issued in a well bound volume that shall be available for the inspection of the public.

Structures hereafter erected without a permit or not in conformity with this ordinance shall be removed. No building shall be moved from one location to another with the city limits of Hamlin, Texas, until a permit has been obtained therefor. A permit shall be issued only in case the construction is in accordance with this ordinance.

Sec. 3. Incombustible Construction Required Within Fire Limits—Every building hereafter erected, altered or enlarged within the fire limits, shall be enclosed on all sides with walls constructed wholly or reinforced concrete, and shall have the roof, also the roof and sides of all roof structures, covered with incombustible materials.

All Cornices shall be of incombustible materials.

Sec. 4. Frame Building—No structure whose walls are wholly or in part, constructed of wood, shall, hereafter, be built or moved into the fire limits as herein designated or as they may hereafter be established except as follows:

(A) Temporary one story frame buildings for the use of builders.

(B) Small outhouses not exceeding 100 square feet in area and 8 feet in height, not located within 30 feet of any other building nor within 5 feet of any lot line.

Any existing frame or iron clad building within the fire limits which may hereafter be damaged by fire, decay, or otherwise to an amount greater than one-half its present value exclusive of the foundation shall not be repaired or re-built, but shall be removed.

Sec. 5. Gas Connections—Gas connections to stoves and similar

heating devices shall be made of rigid metal pipes. For small portable gas heating devices, flexible metal or rubber tubing may be used when there is no valve or other shut-off on the device.

Sec. 6. Any person, firm or corporation violating any of the provisions of this ordinance, upon conviction, shall be subject to a fine not to exceed One Hundred (\$100.00) Dollars.

Sec. 7. All ordinances in conflict with this ordinance are hereby expressly repealed insofar as they conflict with this ordinance.

PASSED AND APPROVED this 27th day of August, 1935.

JOE CULBERTSON, Mayor.
J. B. Eakin, City Secretary.
(Seal)

BEAUTIFICATIONS: We see a great deal about "beautifying" Texas for the 1936 Centennial. It looks to us as though it's too late. Beautification is a thing to be built, grown and that takes time. It's too late to beautify your roadside, your front yard for a tourist after the car is in sight.

WAR seems to be in the air all over Europe—even in our own own peace loving nation 35,000 soldiers recently went through all kinds of fighting tactics. Men need to live to learn that war pays dividends only in death and debt. Are the European maneuvers to scare Italy, or is Italy trying to scare all Europe? While all this goes on poor old Ethiopia shakes in the shadow of death, each day expecting Italy's 600 airplanes to sweep across with their deadly fire and gas.

HAILE SELASSIE is the Ethiopian King. He is trying to sell "his kingdom" into friendly hands. Why not sell all of it Haile, and get England and the U. S. to save your life and develop your people?

GETTING READY FOR WAR

One of the most dramatic acts of the late Congress occurred, entirely unexpectedly as far as the general public was concerned, just before the session passed into history.

This act was the passage of the so-called "neutrality plan," proposed by the White House, originated by the Senate, and forced through the House by Administration leaders under a gag rule which forbade any amendments and limited debate to absolute minimum.

Reason for this unprecedented occurrence does not require a microscope to discover. Everyone knows that Europe is closer to a major war than at any time since 1914. The American State Department doubtless has a much better idea of how close war is than any other domestic agency—it is a possibility that inside Secretary Hull's handsome, impassive, white-thatched head there is knowledge that, if disclosed, would make headlines throughout the country. And, with the memory of the "incidents" that brought America into the World War still fresh, the Administration, which has consistently pursued an extremely cautious foreign policy, seems determined to keep us out of future conflicts if that is at all possible. High spots of the neutrality plan include:

Prohibition of the export of arms and ammunition to any foreign belligerent until Feb. 29, 1936 (by that time another Congress will be in session, and will be able to cope with changed conditions.)

Prohibition of the use of American vessels in arms traffic until February 29, 1936.

Establishment of a strict licensing system for American munition manufacturers and exporters.

Authorization for the President to require a bond of any ships suspect-

ed of transporting arms and munitions.

Authorization for the President to restrict or entirely close territorial American waters to the submarines of belligerents.

Authorization for the President to forbid American citizens to travel abroad during war except at their own risk, unless such traveling is made necessary in order to escape a zone of conflict.

It is an interesting fact that the neutrality bill passed both houses by close to unanimous votes—yet a number of Congressmen, including some who voted for it, are dubious. Senator Johnson, old-time advocate of U. S. isolation, said it would not prevent our getting into war. And a few voices, including that of Senator Wadsworth, potential Republican Presidential candidate, spoke up against the principle it represents, on the grounds that small, persecuted nations will be harmed by the policy, while big, aggressive nations will not. For example, Italy could get by without purchasing arms abroad—while closing of foreign buying to Ethiopia, which has no industrial resources that might be turned to munitions productions, would make it impossible for her to defend herself in the event of war.

However, editorial response to the plan has been highly favorable—papers which oppose the President in most of his policies are for him when he attempts to keep us out of the pending European super-war. The provision whereby Americans traveling on ships belonging to belligerents must do so at their own risk is perhaps the most important single part of the bill—remember the Lusitania! —INDUSTRIAL NEWS BUREAU.

MR. BRAYMER MAKES GAS ANNOUNCEMENT

The offices of the Stamford and Western Gas Company in Hamlin have been moved to the Wilson Hardware Company to facilitate improved service to consumers of Hamlin. Guy Wilson has accepted appointment as merchandising and collection representative for the company and has taken over the gas company's complete line of gas appliances. Payment of merchandise and gas service bills will be received at the Wilson Hardware Company.

Arthur Lawson, who has been with the company for two years has been appointed service manager for Hamlin. The new arrangement relieves the new service manager of all office routine and detail work and will enable him to devote his entire time to operation of the distribution system. Servicing and adjustment of appliances will also be carried on by Mr. Lawson as in the past.

A complete line of modern gas appliances are and will be on display at the Wilson Hardware Company, which has served the people of Hamlin for over a quarter of a century as a leading business firm of this city. To inaugurate the new line of gas appliances, Mr. Wilson has launched a special sale of water heaters including instantaneous automatic and automatic storage types of heaters. The gas company will continue to offer the same convenient terms on merchandise as in the past.

Mr. Braymer says, "It was with a great deal of satisfaction that I learned the Wilson Hardware Company would take over our merchandising business and collections in Hamlin, and I know that it will be a distinct advantage to the people of Hamlin. It will not only give consumers the benefit of many years experience in the merchandising business which Mr. Wilson has, but it will enable our service to devote his entire time to perfecting the gas service here."

"While I am pleased with my new appointment, I regret to give up my home in Hamlin and leaving my friends, but I am gratified that my duties will bring me back to Hamlin often."

The new teachers arriving this week to be members of the Hamlin faculty are, Mr. O. E. Larken, Miss Ruby Phenix, Mr. Thomas L. Cox, and Miss Olivia LeSueur. Of these, Miss Phenix is a "home" girl taking her first position in Hamlin.

Mr. and Mrs. J. O. Jones and daughter, Miss Marcelle of Commerce, came up Monday for a couple of days with old friends in Hamlin. They formerly lived in Hamlin.

H. C. Randolph and son, Albert of Floydada, were here last week to visit Mrs. J. C. Blanton, his sister.

METHODIST CHURCH

The last two Sundays have shown quite an increase in attendance. It is human nature to want to do things which others are doing the same things. There are dozens of Methodists in and about Hamlin with their membership elsewhere and other dozens with their membership here who would not know how to find their way to their S. S. class and would feel a sense of awkwardness in attending the church where their membership is held. Let's break the old habit of hanging out, and build a new habit by meeting with our friends at the church.

September's interesting services: Communion this Sunday morning. Dr. R. A. Stewart, Presiding Elder, preaches here on the 22nd, 11:00 A. M. The same afternoon, Dr. and Mrs. O. P. Clark, of Abilene, begin two training classes that will continue until Friday night of that week. Dr. Clark is teaching "General Organization" and Mrs. Clark has a specialization course in Junior work. Each course will be helpful. Sunday, 29th, is Promotion Day. New teachers will be installed and a program by the S. S. in connection with promoting the pupils.

Is this winter just going to be another winter in church routine services, or will each service sparkle with freshness and interest? It may easily be either but certainly not both.

"I am only one, but I am one, I cannot do everything, but I can do something. What I can do I ought to do, and by the grace of God I will do."

H. A. LONGINO, Pastor.

LUBBOCK, Texas, Sept. 3.—A skeleton with a knife directly in the back and an iron arrowhead in the side was uncovered by two Texas Technological College archaeologists in Room 25 of Arrowhead Ruin, Glorieta Pass, N. M., where students of Texas Technological College were excavating from July to August this summer.

Placed in an embryonic position with both arms evidently fractured before burial, a complete skeleton was taken out by the two diggers, even to the minute finger and toe bones. The estimated height of the skeleton was six feet and the sex probably a woman, because of the bowl shaped pelvis bone.

Since Arrowhead Ruin habitation date is from 1292 to 1450, this skeleton has been rather a mystery, as iron was not used by the Indians until after the Spaniards brought it in, in 1540. evidently this Indian came from a nearby pueblo and was for some reason killed and buried at Arrowhead Ruin. The authorities at the laboratory of anthropology were puzzled as to the origin of this skeleton; however, until a later date on Arrowhead Ruin's habitation is discovered it will remain another archaeology puzzle.

LADY WANTS WORK

I would like to get a place in some home as housekeeper or nurse. If interested call for me at Oscar Newsome's home, known as the W. A. Nobles' place.

MRS. J. PAYNE.

Mrs. Duffield Smith and little son, Duffield, Jr., of Dallas, visited her parents, Mr. and Mrs. H. O. Cassle, this week.

A BAY STALLION

I am offering for quick sale or trade, the pretty Bay Stallion, known as the T. M. Hill Stallion, one mile north of Hamlin. Those interested please call at my Office in Hamlin.

Vegetable
Laxative

THE W. M. U. OF JONES CO.

WILL MEET IN HAMLIN

Next Monday, the 9th of September the Jones County Woman's Missionary Union will meet in Hamlin at the Baptist Church.

Opening program at 9:00 A. M. and lasting all day with a covered dish luncheon.

The State Secretary, Mrs. Leah, of Dallas, will be in charge of the meeting. Mrs. R. M. White, Dist. Pres., will be present.

All ladies are urged to be there.

The Boy Scouts who took a "truck trip" to Carlsbad Cavern last week returned Saturday gay and happy. They report going back three miles into the Cavern and three and a half miles coming out. None of them tell what the thing looks like—just like everybody else, tongue-tied.

It is a poor excuse to be good because you have to.

JONES BOYD (4-4p)

THE CHEVROLET SCHOOL BUS

KNOWN AS NO. 3

Has been sitting out by the Chevrolet display house for several days, and it has proven a dandy good place for certain age girls and boys to meet and play like they are "being transported to school."

This truck is a fine looking job. It has shatter-proof glass—has capacity to carry easily 40 pupils. It has three sections of seats—one on either side and a row of seats "crosswise" in the center. The windows are rainproof too and barred so as to prevent kids and hats from blowing out when full open. It has a rear door to be used only in case of danger. The driver has a long mirror in which he can see every child and thus check his conduct.

The modern school bus is a good example for the railroads to follow.

HOW TO GET

A POSITION

Free illustrated booklet, "Getting Ahead," describes today's inspiring opportunities in business, methods of securing positions, training and time required, cost of tuition, and shows a long list of recent positions. If you want to save time, save money, and be sure of early employment opportunities, write Draughton's Practical Business College, Abilene, Texas, for your copy today. (p)

THIS WINTER

Starting September 9th, I will begin a class in Kindergarten at my residence. Any parent having children in this age please see me at once. Rates will be reasonable.

MRS. OTIS HOPPER.
(42-4t)

Jimmy Russell, of Belton, was a guest in the home of his friend, Robert Johnson, this week.

STRAUSS STORE LOOKS LIKE NEW

For several weeks, Richard Lehman, the real boss, manager and owner of the Strauss Dry Goods, has kept things humming around his store getting ready for the apparent big fall business.

A force of carpenters and painters has torn down and out and rebuilt, and re-painted and re-varnished and enameled almost every corner and nook of the store.

New shelving, new cases, new departments and a general brightening up of the store room and the fixtures has transformed the appearance into a new looking place. More room, too, than ever.

On entering this store one can easily "find herself" and know just what department of dry goods he is in and thus the customer makes it easy for the clerk to understand and wait upon the trade.

The store has a longer appearance than before, showing the wrapping counter and office farther back and the new arrangements of the counters and tables show that there is more room for the customers and clerks.

Almost at the clerk's elbow in compact position, he can show the line of goods desired. The shoes are closely departmentalized, the hosiery, lingerie, notions, piece goods, men's and boys' wear, hats, and all have been so re-arranged that convenience is the key-note now. In the rear you will find a new lot of display counters for ladies' wear, millinery, all well lighted and arranged for quick, easy inspection and try-out.

The Strauss store is to be brightened up on the outside also, improvements on the awning and windows.

MRS. HARDEN HOSTESS TO
UTOPIAN CLUB

Mrs. D. D. Harden was hostess for the first autumn session of the Utopian Club when she entertained Wednesday at one o'clock with a luncheon, in the home of her daughter, Mrs. Turner Bynum, on Lake Drive.

Summer flowers decorated the entertaining rooms and small crystal baskets of zinnias centered the three luncheon tables. Following the luncheon four games of contract were played with Mrs. H. O. Cassle scoring high for the club and Mrs. Duff-

field Smith for the guests.

A short business meeting was held in which Mrs. Taylor was elected president, Mrs. Moody, vice president and Mrs. C. G. Green, secretary.

The next meeting will be September 18 with Mrs. Green hostess in her home on Union Avenue.

Members present were Mmes. J. T. Bynum, J. F. Taylor, H. O. Cassle, W. R. Calhoun, F. B. Moore, Turner Bynum, C. G. Green, Alford Harden, and J. E. Moody. Guests were Mrs. Mac Brundage and Mrs. Duffield Smith, of Dallas.

Miss Nellie Mae Cumpston, a teacher in the Corsicana schools, was a week-end guest with Misses Ruby and Irene Thompson. Miss Cumpston and Miss Ruby were room mates at C. I. A.

Mrs. Lynis Phillips and daughter returned to their home at Lamesa, after visiting with her parents, Mr. and Mrs. W. A. Huling, also Mrs. Leo Smith and baby returned to their home in Robeline, La., after visiting here.

R. W. Stubblefield returned last week from a trip to Alabama on his ten days' vacation. He visited his brother and sister in Alabama.
